Fanar Alabbadi

+966 534258269 | fanarghazi@outlook.com | Saudi Arabia

SUMMARY

IT graduate with a strong foundation in software development, cybersecurity, and IT solutions. Combines a technical background with a business-oriented perspective, applying analytical thinking to bridge technology and business needs. Focused on leveraging technology to enhance operational efficiency, support financial processes, and business performance.

EDUCATION

Prince Musaid bin Abdulrahman University - Saudi Arabia

Bachelor's degree in Information Technology

GPA: 3.4 / 4 with class honors

EXPERIENCE

Bakheet Holding | Saudi Arabia

Co-op Trainee | September 2026 - October 2026

- Supported IT infrastructure operations and day-to-day technical activities.
- Assisted with system administration, user device configuration, and software deployment.
- Verified endpoint security using Trend Micro Security Agent and ensured required company software was installed and up to date.
- Performed Windows reinstallation and system recovery using bootable USB drives.
- Assisted with hardware maintenance, including RAM replacement and basic printer setup.
- Conducted laptop inspections and verified equipment delivery records against internal documentation.
- Gained exposure to data center infrastructure and enterprise IT environments.

PROJECTS

Personal Portfolio Website

- Designed and developed a personal portfolio website to present projects, technical skills, and academic work
- Built a responsive and interactive interface using HTML, CSS, and JavaScript
- Deployed using GitHub Pages

SmartMedi - Graduation Project

- Developed the mobile application using Android Studio
- Implemented Firebase services for user authentication and real-time database
- Contributed to UI design and development of app screens
- Worked in a team environment following software development practices
- Technologies: Android Studio, Java, XML, Firebase

IT Finance Dashboard | Power BI

- Designed and developed an interactive dashboard to monitor IT expenses, budgets, and asset utilization.
- Created DAX measures to calculate financial KPIs and analyze budget performance and asset metrics.

Mizan – Finance Operations Web Application | *In Progress*

- Developing a web-based application to support finance and accounting workflows.
- Addressing manual bank reconciliation challenges through a prototype designed to streamline matching between bank statement transactions and General Ledger records.
- Exploring additional features for invoice management, payment tracking, and financial data organization.

Password Strength Checker

- Developed an interactive web-based tool to evaluate password strength in real time
- Implemented validation rules to assess password complexity (length, characters, and security level)
- Provided instant feedback to help users create stronger and more secure passwords
- Built using HTML, CSS, and JavaScript

Smart Parking System - Academic project

- Collaborated with a team to design and develop a web-based parking system
- Developed responsive user interface components using HTML, CSS, and JavaScript
- Implemented a basic sign-up and login feature for user interaction flow
- Improved the user interface layout and overall user experience through design refinements

CERTIFICATES

- AWS AI Practitioner Training Program | AWS, SDA & MCIT
- Introduction to Cybersecurity | Cisco Networking Academy
- Cybersecurity Fundamentals | IBM SkillsBuild
- Foundations in Generative AI | IBM SkillsBuild & eyouth
- Web Development Fundamentals | IBM SkillsBuild

MEMBERSHIPS

- Saudi Council of Engineers | Student Membership
- Cyber Security Network Professionals | Member

SKILLS

Technical Skills

- JavaScript
- HTML & CSS
- Web Development
- UI/UX Design
- Microsoft Office
- Power BI
- DAX
- Data Analysis & Visualization
- IT Infrastructure
- System Administration
- Endpoint Security

Soft Skills

- Detail Oriented
- Learning Agility
- Critical Thinking
- Problem-Solving
- Adaptability
- Communication
- Time Management
